#### COMMENTS FROM ATTENDEES

“RAA Re Claims is a very dynamic and all encompassing insurance/reinsurance program that provides a wonderful opportunity to not only attain an education but to network with your industry as well.”

**James Femia, Sirius America**

“The case studies and discussions were from ‘real life’ scenarios and the facilitators helped students understand how the contracts work in regards to claim payments and what is covered. Very important to understand in today’s industry.”

**Noreen Kuziak, Munich Re / Hartford Steam Boiler**

### [Re Claims: Navigating the World of Reinsurance Protection When Loss Strikes](#)

October 15-16, 2015

New York, NY

**IACP Members are eligible for the discounted “Partner” Registration rate!**

The Reinsurance Association of America's [Re Claims](#) is a two-day program designed to provide all levels of claims and underwriting professionals with in-depth knowledge of the most critical areas of reinsurance claims analysis and management. Our program this year offers provocative new breakout sessions, including medical marijuana; privilege issues between insurers and reinsurers—what is discoverable?; cyber risk claims; new developments in asbestos; and the erosion of the exclusive remedy—how workers comp works with GL.

New general sessions and interactive workshops led by the industry’s leading experts give practical approaches to dealing with today’s challenges and preparing for tomorrow’s emerging concerns from the perspective of the actuary, underwriter and claims professional.

Re Claims awards CPE, CPCU and CLE continuing education credits. Review the [agenda](#) and [register](#) at [Re Claims](#).

Contact Ann-Marie at [mwombela@reinsurance.org](mailto:mwombela@reinsurance.org) or 202-783-8385, with questions about the program or for help with registration.
